We are Grandparents living in the Senior Community known as Greater Sun City Center, Florida.

Sammy was the nine year old Granddaughter of one of our community riders; this innocent and loving child recently succumbed to pediatric cancer following a long and courageous fight.

On May 10, 2011, following a 68 day, 2400 mile journey, bicycle riders from our community will lead hundreds of other riders over the finish line. Along the route beginning in Sun City, Arizona, seniors and children bicycle riders alike will be welcomed to join our riders for a minute, a mile or a day.

This *All-Volunteer* effort is intended to honor Sammy and to awaken senior citizens throughout the nation that today retirement is not the *end*, but rather just one more *new beginning*. We will promote Greater Sun City Center and the Tampa Bay area as the place to live, to learn and to find your passion in retirement. In the past year, we have raised, through the generosity of our community, over \$65,000 to cover all costs associated with the ride.

AARP is endorsing our effort at the State and National levels. (**Grandparents**) We are in the process of including Lance Armstrong's LiveStrong Foundation as well as Elementary, High School and College Students, Scouts, Boys and Girls Clubs as well as National Youth Organizations. (**Grandchildren**)

We now ask you to Support our efforts to reach our Goal of \$1,000,000.

Your contribution as a Sponsor will go 100% to Fight Pediatric Cancer (Health)

PLATINUM - \$10,000 Plus

Silver - \$2,500 - \$4,999

GOLD - \$5,000 - \$9,999

Bronze - \$1,000 - \$2,499

We will be proud to receive and to recognize your support as we bicycle our Nation. Please contact me directly for further information on our long, arduous and “wake up the world” journey: “*Grandparents Riding for the Health of Grandchildren*”.

Thank you,

John “Woody” Nelson
