

AT YOUR SERVICE

Spa Serenity's goal is to offer extraordinary service to Kings Point residents and their guests. In a recent Client Survey, the staff scored high praise and was described as "pleasant and helpful".

After her massage, Mary Bushong singled out Dena Baxley's service as excellent. "Dana is always attentive to my input and 'reads' my body muscles very well". She further wrote "I am so thankful to have the Spa right here in the South Club House".

Please observe the speed limit while driving in Kings Point, and be considerate of other drivers, cyclists and pedestrians.

You currently enjoy Bright House Networks Standard Cable through your residential community. Now you can get even more! Enjoy Digital Cable, Home Phone Service and Road Runner High Speed Online with speeds up to 10 Mbps FOR One LOW MONTHLY PRICE.

- Apply your sunscreen about 45 minutes before going out to allow time for the protective chemicals to absorb into the skin. Reapply the sunscreen if you remain outdoors for any length of time and after swimming or drying off with a towel.
- Use sunscreen under makeup; it is still effective.
- And finally, remember that hats and protective clothing are the best protection.
